Discover the World of Premium Rice with GBI

# Company Overview

## Transforming Local Products Into Global Markets

At Green Business Initiative LLP (GBI), we specialize in transforming local agricultural products into global commodities. With a focus on farming, production, branding, and distribution, we supply an extensive range of rice varieties, spices, and agro-products.

Our goal is to promote rural green business initiatives by leveraging innovative branding, digital marketing, and local partnerships. By integrating modern practices with traditional expertise, GBI ensures that every product meets international standards of quality and nutrition.

We are dedicated to cultivating premium rice varieties and delivering them from India to the world, making GBI a trusted name in global agro-business.

## Recent Developments in GBI's Rice Marketing Strategy :

- 1. Rice Processing and Packaging:** Specializing in premium rice varieties, including basmati, non-basmati or aromatic and sticky rice from Assam and distinct types of other rice varieties.
- 2. Market Expansion:** Conducting feasibility studies and forming partnerships with businesses in Europe, Gulf regions, and East Africa to promote Indian products globally.
- 3. Sustainable Practices:** Adopting Good Agricultural Practices (GAP) to ensure safe and eco-friendly production, avoiding the use of harmful fertilizers and chemicals.

**At GBI, we bring you more than just rice, we bring quality, innovation, and trust to your table.**

## Mission

At GBI, we aim to elevate Indian agricultural products by providing high-quality rice and other agro-products that connect communities across the globe over shared culinary traditions.

## Vision

We envision a future where local farmers and agro-entrepreneurs thrive, delivering natural, nutritious products to global markets, fostering health, and enriching lives worldwide.

## Core Values

In collaboration with our partners and customers, we are committed to:

- Original Rich Aroma
- Non-Sticky Texture
- Softer and Tasty
- Hygienically Packed
- Naturally Aged
- Naturally Aromatic
- Zero Cholesterol
- Rich Aroma
- Daily Cooking

# Indian Rice Products

## Types of Rice

Rice is cultivated in numerous varieties worldwide, but they can generally be categorized into three main types:

Long Grain Rice	Medium Grain Rice	Short Grain Rice
 <p>Long-grain rice features slender kernels, typically four to five times longer than their width, with a length ranging from 6 to 9 mm. This rice cooks light and fluffy, with grains remaining separate, making it ideal for dishes like biryanis and pilafs.</p>	 <p>Medium-grain rice has shorter kernels, approximately three times longer than their width, measuring between 4 to 6 mm. These grains tend to cling together when cooked, giving dishes a soft and creamy texture.</p>	 <p>Short-grain rice is characterized by its plump, round kernels and high starch content. It cooks to a soft, sticky consistency, perfect for dishes like sushi, risottos, and puddings.</p>

## Forms of Rice

Rice undergoes various processing methods to achieve its final edible forms. Each form offers unique characteristics and benefits:

**Brown Rice:** Brown rice, also known as whole-grain rice, has its inedible outer husk removed while retaining the nutrient-rich bran layer. This gives it its distinct brown color and chewy texture.

**Raw Rice:** Commonly referred to as white rice, this variety has its husk and bran layers removed during milling. It has a longer shelf life, a softer texture, and is widely used in everyday cooking.

**Steamed Rice:** Steamed rice is made by soaking the grains in water and then exposing them to hot steam. This process enhances the grain's texture and reduces its breakage during cooking.

**Parboiled Rice:** Parboiled rice is partially boiled in its husk, a process that boosts its nutritional content by retaining more vitamins and minerals. It cooks faster than regular white rice and offers better fiber, calcium, potassium, and vitamin B-6 levels, making it a healthier option.

**At GBI, we offer a wide range of premium rice varieties, tailored to meet diverse culinary preferences and health needs.**

# GBT Basmati Rice

(From India to the world)

## Authenticity Rooted in Tradition

Rice is more than a staple; it reflects India's rich cultural heritage. At GBI, our premium basmati and non-basmati rice varieties are celebrated for their authentic flavors and superior quality.

## Basmati: The Queen of Fragrance

Basmati, meaning "Queen of Fragrance," is a long-grain rice renowned for its delicate aroma and flavor. Cultivated in India for centuries, Basmati has become globally recognized for its exceptional quality, elongation after cooking, and distinctive taste. Its origins trace back to the fertile plains at the foothills of the Himalayas, where the tropical climate and rich soil create the perfect conditions for cultivating this prized grain.

## The Indian Heritage

Basmati rice is a gift from the Indian subcontinent to the world, grown by generations of farmers in the northern regions of India. Revered for its unique qualities, Indian Basmati has become a symbol of the country's culinary legacy, offering a rich, aromatic experience for food connoisseurs worldwide.

## Distinct Varieties

GBI offers a range of premium basmati rice, each known for its unmatched aroma, flavor, and post-cooking elongation:

**At GBI, we bring you the finest Indian rice, rooted in tradition and perfected for the world.**
